

Creatures found at Jellurgal

Jellurgal (otherwise known as Burleigh Headland) is home to many animals both on the mountain and in the waters around it. While many animals were used as food by the Yugambeh speaking people of the region, others were considered friends and even helped the people to hunt, like in the story of Gowanda (the dolphin).

Find the names of some of the animals which can be found at Jellurgal or in the creek and ocean around it in this word search.
