

Animals in Yugambeh language

Across Australia there are many different Aboriginal and Torres Strait Islander languages. The Yugambeh language was spoken in the land located in south-east Queensland and north-east New South Wales, now within the Logan City, Gold Coast, Scenic Rim, and Tweed City regions. Ancestors spoke one or more dialects of the Yugambeh Language.

Colour in or paint the animals with a dot painting style and learn to count in Yugambeh language! Full page animals can be found on the following pages.

Tip: Use the end of a paintbrush or a cotton tip to create the dot painting style.
